

TAPERED TUBE PLUGS

EXTEND THE LIFE OF YOUR HEAT EXCHANGER TUBE AND STOP LEAKS

NS Industries manufactures tapered tube plugs used to stop leaking heat exchanger tubes and extend the life of the heat exchanger. Our smooth surface finish will provide a positive seal stopping the leak. Stainless Steel (316), Brass (360), and Carbon Steel (1214) are in our stock ready for immediate shipment. Other alloys and specials can be manufactured quickly on our CNC lathes.

Protect heat exchanger tubes from leaking...and save money. Contact Harry Brocklehurst today at 606.387.4095 or nsindustries@windstream.net

TAPERED TUBE PLUGS BY NS INDUSTRIES, INC.
